--------	------	------

and follow instructions on the screen.

If you purchase the textbook in new condition through the DeAnza book store, you will get an access code bundled with the book. Otherwise, you will need to purchase online access to use WebAssign.

#### OTHER REQUIRED MATERIAL

- **PENCILS ONLY** must be used for all work in this class. (worksheets, quizzes, and exams).  
**Student work written with pen will not be graded and will receive “0” points.**
- **Print out all the handouts** posted on MyPorotal. I will collect “Study Sheet” at the start of class on each exam day.

#### COURSE DESCRIPTION

This is the second course of a four-quarter calculus sequence. It covers fundamentals of differential calculus: limits, continuity, derivatives of algebraic and transcendental functions, and an introduction to antiderivatives.

#### STUDENT LEARNING OUTCOMES

After completion of the course, students will be able to

- Analyze the definite integral from a graphical, numerical, analytical, and verbal approach, using correct notation and mathematical precision
- Formulate and use the Fundamental Theorem of Calculus
- Apply the definite integral in solving problems in analytical geometry and the sciences

#### PREREQUISITES

Math 1A (with a passing grade of C or better) or equivalent.

#### HOMEWORK

Homework will be assigned weekly and late work will not be accepted. **You will turn in your homework assignments on WebAssign, [www.webassign.net](http://www.webassign.net).**

Each homework assignment is worth **4 points** and **one lowest score will be dropped**. Please read “Homework Guidelines.”

## EXAMS

There will be **two** exams. Each exam is worth **150 points**. The exams are closed book. You may use **one 3" by 5" index card (both sides)** for notes. There are **no dropped exams**. If you take an exam and don't do well on it, you cannot drop that score. If you take an exam, the score for it will count towards your grade. **You are NOT allowed to use any calculator on exams.**

**Missed Exam:** There are **no make-up exams**, regardless of why you missed it. If you are unable to take the exam at the scheduled time due to illness or an emergency, I will then use your percentage from the final exam minus 10% to compute your score for the missed exam. (Example: Your score on the final exam is 80%. I will take 70% of 100 to compute your exam score.) If a second exam is missed, you will get a zero.

## FINAL EXAMS

There will be a mandatory comprehensive final exam worth **200 points**, and this exam must be taken during the scheduled exam time on **Dec 13 at 4:00pm-6:00pm**. The final will cover all the material discussed during the semester. Missing the final will result in a grade of "F" for the course. You may use three 3" by 5" note cards (both sides) for notes.

## QUIZZES

Pop-quiz questions will be given at the end of class. There are **no make-up quizzes**, regardless of why you missed it. **You are NOT allowed to use any calculator on quizzes.**

## CALCULATORS

You may use a graphing calculator in class. The TI-83, TI-83 plus, TI-84, or TI-84 plus are recommended for the students. **You are NOT allowed to use any calculator on exams and quizzes.**
