

Instructor	Mehrdad Khosravi												
Office	S-42a, Office: TR 1:30-2:20, Online: MW 4:00-4:50 (EMAIL)												
Phone	(408)864-5384												
E-mail	khosravimehrdad@deanza.edu												
Web Page	http://nebula.deanza.edu/~khosravi												
Class Time and Location	MTWRF 12:30-1:20 MLC108												
Course Description	Conic sections, parametric equations, systems of equations and inequalities, vectors, lines and planes, sequences and series, polar coordinates, mathematical induction, and the binomial theorem.												
Course SLO	<ol style="list-style-type: none"> 1. Analyze, investigate, and evaluate linear systems, vectors, and matrices related to two or three dimensional geometric objects. 2. Graph and analyze regions/curves represented by inequalities or trigonometric, polar, and parametric equations, including conic sections. 3. Analyze, develop, and evaluate formulas for sequences and series. Justify those formulas by mathematical induction. 												
Course Text	Precalculus with Limits, 3 rd edition, by Larson, published by Brooks/Cole, Cengage Learning, 2014.												
Required Materials	The textbook, a graphing calculator (TI-83 or 84 is preferred if you are buying a new calculator. If you already have a TI-82, 85, or 86, you can use that.)												
Course Prerequisites	<p>Mathematics 41 and 42 (both with a grade of C or better); or a satisfactory score on Calculus Readiness test within the last calendar year.</p> <p>Advisory: English Writing 211 and Reading 211 (or Language Arts 211), or English as a Second Language 272 and 273.</p>												
Method of Instruction	This class will consist of lectures and in-class discussion. There will also be boardwork and in-class group assignments which you are expected to participate in.												
Evaluation Process	<p>Final grade in this course will be determined as follows:</p> <table border="0" style="margin-left: 40px;"> <tr> <td>Class participation</td> <td style="text-align: right;">5%</td> </tr> <tr> <td>Homework, and Quizzes</td> <td style="text-align: right;">20%</td> </tr> <tr> <td>Tests</td> <td style="text-align: right;">45%</td> </tr> <tr> <td>Final Exam</td> <td style="text-align: right;">30%</td> </tr> </table> <p>Grading scale:</p> <table border="0" style="margin-left: 40px;"> <tr> <td>[92,100] :</td> <td style="text-align: right;">"A"</td> </tr> <tr> <td>[90,92) :</td> <td style="text-align: right;">"A-"</td> </tr> </table>	Class participation	5%	Homework, and Quizzes	20%	Tests	45%	Final Exam	30%	[92,100] :	"A"	[90,92) :	"A-"
Class participation	5%												
Homework, and Quizzes	20%												
Tests	45%												
Final Exam	30%												
[92,100] :	"A"												
[90,92) :	"A-"												

[88,90) :	"B+"
[82,88) :	"B"
[80,82) :	"B-"
[78,80) :	"C+"
[70,78) :	"C"
[60,70) :	"D"
Below 60 :	"F"

The top two scores in class that are above 98% will receive A+. The student is responsible for saving all graded, returned work. There will be no discussion of grade discrepancies unless the student has a graded copy of the work in question.

Tests and Quizzes

There will be three in-class tests, each counting as 15%. **absolutely no makeup tests.** If you miss a test due to what I consider an emergency and you provide appropriate documentations, I will replace that one grade with your final. If I don't consider your reasoning as an emergency, you will receive a zero for that test. Regardless, you will get zero for any other missed tests, emergency or not. No makeups for the final can be provided. The final grade cannot be dropped.

Quizzes will be given randomly at any part of the class period. There are **absolutely no makeup quizzes.** A missed quiz for any reason (including coming late or leaving early) will count as a zero.

Homework

In the course schedule I have included a list of suggested homework problems from each sections. You are responsible to do at least all of the suggested problems. You are responsible to know how to do ALL of the problems. There is a direct correlation between your level of comfort with the homework problems and your success in this class. If I feel a majority of you are not doing the homework, I may increase the number of quizzes or start collecting the homework from each section. You must keep a copy of all turned in work for you own review. Assume you will not get any of your homework you turn in back.

Class Attendance and Faculty Initiated Withdrawal Policy

A student who discontinues coming to class and does not drop the course will get an F. It is the student's responsibility to drop the course. Attendance is mandatory, and counts as 5% of your total grade. Every absence, tardiness, early departure for any reason, or in class distractions (such as cell phones or computers) could result in a loss of 1%. If a student misses three classes, he or she may be dropped. However the the ultimate responsibility of dropping the course lies with the student.

Withdrawal Policy

The withdrawal deadline for the quarter is **March 3rd, 2017**. If students withdraw before this date, they will receive a "W". After this date, an "F".

Academic

Students are expected to abide by the college code of conduct. All work

Honesty and Discipline Policy

turned in is to be the student’s own. Students giving or receiving help on a test or quiz will forfeit all points for that assignment and may be withdrawn from the course with a grade of "F". For take home assignments, any student turning in a work, which is strikingly similar to that of another student, will be required to schedule a conference to discuss the matter with the instructor, and any evidence of cheating will result in no points for that assignment and will be reported for further action. I take cheating very seriously and reserve the right to put the incident in your permanent record.

Important Dates

Please check the [important dates](#) for this quarter. The scheduled final is on the [course schedule](#).

Expected Student Conduct

A student who is disruptive will be asked to leave the class. A student who refuses to leave the room will be dropped from the class and will be reported for further action. During the quarter, if you have any questions about the course policies, you will be first referred to this syllabus. Please make sure you keep a copy.

Students with Disabilities

Students with disabilities who qualify for academic accommodations must provide a notification from the Disability Support Services (DSS) and discuss specific needs with the instructor, preferably during the first two weeks of class. Disability Support Services determines accommodations based on appropriate documentation of disabilities. DSS is located in Student Community Services building, room 141 and their phone number is (408) 864-8753

Disclaimer Statement

The information presented in this syllabus may be modified as required by the instructor. Students will be notified of any modifications during normally scheduled classes, and the students are responsible for the changes.
